## Access driver medicals in just a few clicks with the D4Drive Booking System

### Personalised logins

Access D4Drive using your company login, and check appointment availability or book a medical whenever it suits you.

### Referral codes

If booking medicals isn't your thing, get the drivers to do it themselves. By using their code, bookings are allocated to your account giving you the reassurance of knowing that they will receive a thorough assessment from an experienced Doctor.

### View your account online

View all past and future bookings made on your account, and check whether drivers have attended appointments you have arranged.

### Simple monthly billing

All bookings are added to your account and you receive a single itemised monthly invoice. No card payments or receipts required. The details of each driver, which location they attended and any reference or PO numbers you require for billing purposes are also included.

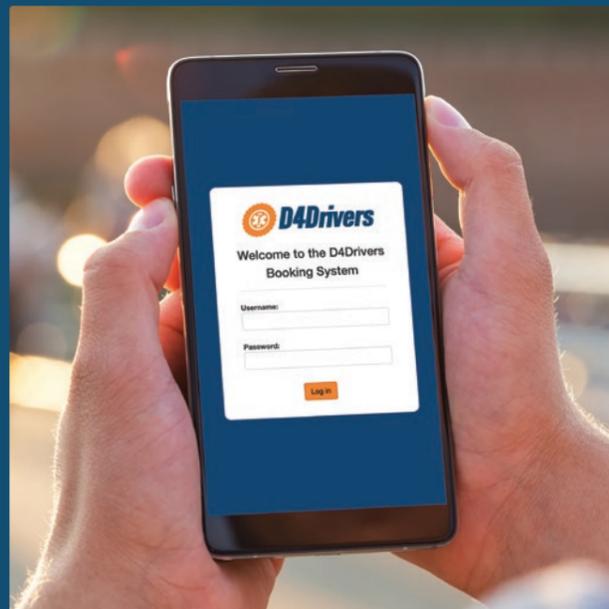

**“The online booking system is well designed and very user friendly. We are able to see several dates with a choice of times on each date for outside medicals, enabling our staff a wider choice of appointment times.”**

R. Barton, Stagecoach

## Log in and take control of your driver medicals, quickly and easily

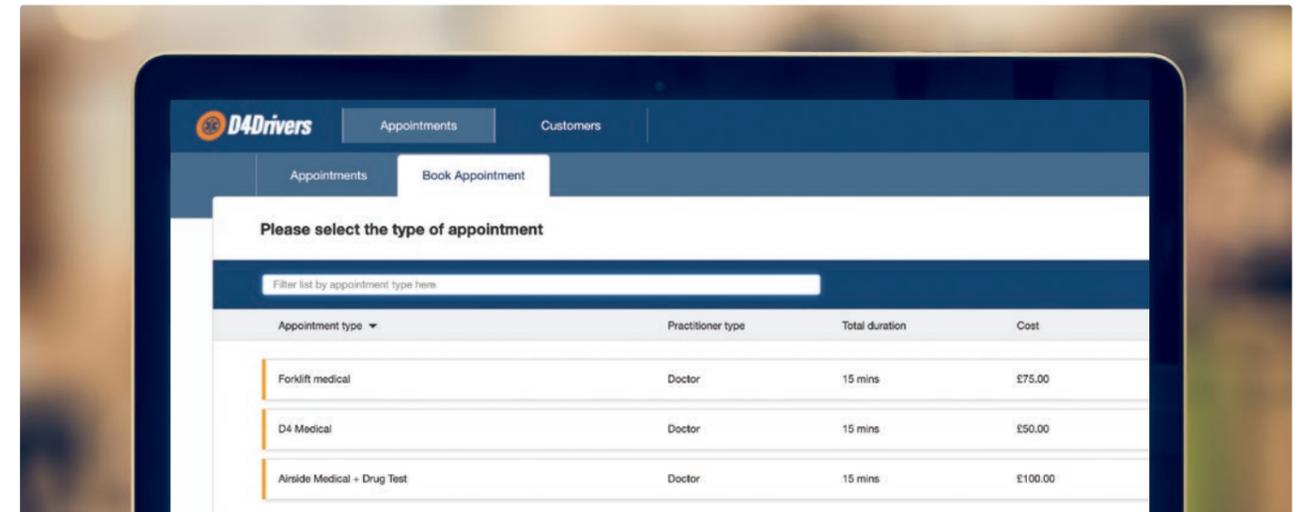

D4Drivers account customers who want to book medicals for their drivers can take advantage of a personal company log-in, enabling them to check availability, book appointments and view their account online whenever it suits them.

The process is quick and simple, allowing a medical booking to be placed in just 4 easy steps.

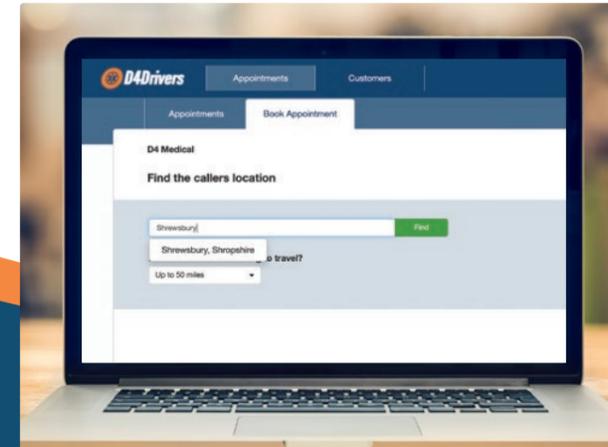

## Book a medical in four simple steps

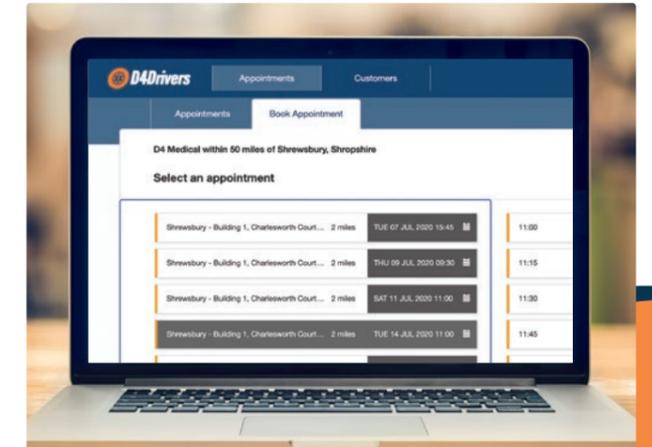

### 1 Select a service

### 2 Confirm location

### 3 Choose appointment

### 4 Confirmation email

The driver will receive an email confirming their appointment including everything they need to bring with them. The employer can also receive a copy of this for their records if required.

You can also view all your previous and upcoming bookings on the D4Drive booking system so you can predict expenditure.

**“The booking system is easy to use, couldn't recommend it more.”**

D. Murphy, GTG Training

The UK's Leading Supplier of Driver Medicals

Rated Excellent

★ Trustpilot

## Use our virtual referral codes to standardise costs and ensure drivers receive a thorough assessment

### 1 Request code

Simply request as many codes as you need and we will send them to you by email.

### 2 Allocate code

Give the codes to anyone who needs to book a medical. They can redeem a code either by phone or online.

### 3 Redeem code

Once the code is redeemed the driver will skip payment, and their appointment will be confirmed.

### 4 Receive invoice

Any bookings made using your codes will be allocated to your next invoice.

Referral codes are sent by email on request in whatever volume you require and you do not pay for codes you don't use. Referral codes are single use so they cannot be passed on and incur unwanted charges.

**“The booking system is very easy and the referral codes are a much easier solution to keeping track of bookings and spend.”**

A. Passmore, Falck
